# Average time attorney spent to close the case

After COVID (2020-2022) minus before COVID (2017-2019)

# Average Client To Attorney Ratio and Average Annual Income

## 2012 to 2023

There was a **decrease in the average number of hours spent per client request** from before COVID-19 to after COVID-19. This could suggest that clients are becoming more efficient in their legal needs and that attorneys are finding ways to work more efficiently.

However, **seven states worsened in terms of performance**. The average time that attorneys spent actually increased compared to pre-COVID era.
